

Junior Actuary - Medical Underwriting- ALIG Insurance

Established in 1997, ALIG Insurance is a leading insurance and reinsurance provider in the Lebanese market offering its expertise to private and corporate clients

Major: degree in Mathematics, Economics, or any related field

Experience: 0-2 years of experience in actuarial or underwriting

Major Responsibilities:

- Review and analyze medical history and health records to determine the level of risk associated with potential policyholders.
- Evaluate medical conditions, treatments, and lifestyle factors that may affect premiums or underwriting decisions.
- Assist in the development of underwriting guidelines and risk criteria for specific insurance products.
- Assist in preparing actuarial reports, including pricing models, claims projections, and policyholder demographics.
- Collaborate with senior actuaries to ensure accurate pricing and risk management strategies.
- Support in underwriting decisions for new and existing policies by reviewing medical information and providing recommendations.
- Assist in preparing reports and presentations for senior management regarding risk trends, pricing accuracy, and underwriting results.
- Further assignments required by the management that are necessary for the business flow.

Additional Requirements:

- Proficiency in actuarial software, Excel, and other relevant tools (e.g., SAS, R, Python).
- Basic knowledge of medical underwriting processes, insurance products, and risk management is a plus
